Your name will be automatically added to the attendee list (blue sheets) from your datatracker login

Enter the queue by pressing the raise hand  button, leave with 

When it's your turn to speak, use  to send audio, stop with 

Please state your full name before speaking and use headphones

# Note Well

This is a reminder of IETF policies in effect on various topics such as patents or code of conduct. It is only meant to point you in the right direction. Exceptions may apply. The IETF's patent policy and the definition of an IETF "contribution" and "participation" are set forth in BCP 79; please read it carefully.

As a reminder:

- By participating in the IETF, you agree to follow IETF processes and policies.
- If you are aware that any IETF contribution is covered by patents or patent applications that are owned or controlled by you or your sponsor, you must disclose that fact, or not participate in the discussion.
- As a participant in or attendee to any IETF activity you acknowledge that written, audio, video, and photographic records of meetings may be made public.
- Personal information that you provide to IETF will be handled in accordance with the IETF Privacy Statement.
- As a participant or attendee, you agree to work respectfully with other participants; please contact the ombudsteam (<https://www.ietf.org/contact/ombudsteam/>) if you have questions or concerns about this.

Definitive information is in the documents listed below and other IETF BCPs. For advice, please talk to WG chairs or ADs:

[BCP 9](#) (Internet Standards Process)

[BCP 25](#) (Working Group processes)

[BCP 25](#) (Anti-Harassment Procedures)

[BCP 54](#) (Code of Conduct)

[BCP 78](#) (Copyright)

[BCP 79](#) (Patents, Participation)

# Agenda

## Housekeeping

Scribe Selection / Note Well / Agenda Bashing

## CONNECT-UDP and HTTP/3 Datagrams

Interop status, draft updates, and open issues, *David Schinazi*

## CONNECT-IP

Requirements status and next steps, *Chairs*

Proposal 1, *Alex Chernyakhovsky*

Proposal 2, *Mirja Kühlewind*

WG discussion, *Chairs*

## As Time Permits

HTTP Datagram Prioritization, *Lucas Pardue*

# IP Proxying Requirements

WGLC confirmed consensus on *most* parts of the requirements document

Next step: produce stable reference for assessing solutions

# IP Proxying Proposals

Two proposals:

The CONNECT-IP HTTP method for proxying IP traffic

The CONNECT-IP HTTP Method

Goals of these presentations:

1. Establish shared understanding of proposals
2. Assess feasibility of either (or both) as basis for a solution

# Towards an IP Proxying Solution

Discussion questions:

1. Which options satisfy the desired use cases?
2. What features are essential vs optional?
