

Interoperability: An Early Discussion

Eve M. Schooler

IETF 111 RAW WG – Tuesday, July 27th, 2021

A Rough DetNet/RAW Timeline

Time to think about if/how to use the IETF Hackathons?

IETF Hackathon:

Great venue for Interoperability Testing

How important to folks in the room:

- Time to queue up the discussion?
 - DetNet has a nearly full set of I-Ds (though RAW has a ways to go)
- Pop-up hackathon or plugfest the right format for testing?
 - The right duration? frequency?
 - The right capabilities and permanence of the underlying network?
- Encourage a range of approaches? *e.g.*,
 - Create/borrow/showcase various testbed strategies?
 - Collaboration partners?
