draft-ietf-teep-otrp-over-http-12

- FEB 2020: WGLC completed, with reviews from Russ and Tiru

- JUL 2020: IETF 108 discussed new reviews from Hannes, Ming, MNot

- NOV 2020: IETF 110 "last" issue resolved, ready for shepherd writeup

- Changes since IETF 110:
  - Intended status corrected (Standards Track) as caught by shepherd
  - Title updated to match abstract:
    - HTTP Transport for Trusted Execution Environment Provisioning: ~~Agent-to-TAM~~ Communication
    - HTTP Transport for Trusted Execution Environment Provisioning: Agent Initiated Communication

- Ready for IESG submission, but has normative reference to TEEP Protocol
