

IETF 112 DRIP Architecture WGLC update

Revision 16 Summary

- Most comments came from Stu and Bob after 1st WGLC:
- All comments were discussed mostly in author's group since no other external comments during WGLC period
- -16 has adequately addressed most of the comments

Updates in -16

- Text improvement, thanks Stu for detailed review
- Updated a few figures to align with req-
- Section 4 UAS Remote Identification problem space:
 - Reflect specific requirements
- Added a new section:
 - Section 6: DRIP Identifier Trust
 - Section 8 DRIP contract

Still Missing

- New comments from Stu regarding more text improvement. We are getting perfect!
- new comments from Bob and Stu during IETF week

Way forward

- Another revision in around 2 weeks
- Another 2 weeks for WGLC then publication request
