tools.ietf.org transition

As announced last May, the services at tools.ietf.org are being replaced, and tools.ietf.org will be wound down before IETF 113.

In particular, xml2rfc.tools.ietf.org will be replaced with new bibxml and document conversion services.

We are redirecting to the new services as they become available and tracking where they are located at

<https://github.com/ietf-tools/tools-transition-plan>

Education, Mentoring & Outreach Directorate (emodir) Update

Thanks to Joey Salazar for her contributions as co-coordinator
