General Purpose Extended Key Usage (KU) for Document Signing X.509 Certificates

draft-ito-documentsigning-eku-02

Tadahiko Ito, Sean Turner, Tomofumi Okubo

-02 changes

Clarified "document signing"

    Addresses concern that definition was not technical

Added new section: "Using the Document Signing EKU in a Certificate"

    Addresses concern that handling process is undefined

    Addresses concern about EKU as policy identifier

Added text in security considerations to better address cross-protocol attacks and privacy considerations (none)

Next Steps

WG adoption call?
