

IETF 112 Online RegExt Session, Nov. 10, 2021

Review of draft-ietf-regext-rdap-reverse-search

Mario Loffredo
Registro.IT/IIT-CNR

Versions since IETF 111

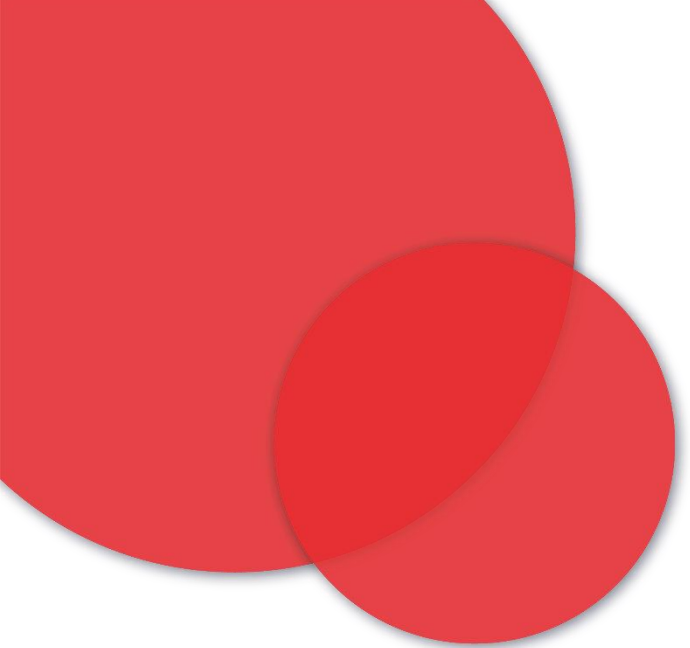

- -07
- Replaced references to obsolete RFCs

Next steps

- Define likely use cases
- Address some technical points:
 - should we extend the reverse search to accomplish other cases ?
 - should we obfuscate the private information in the query string ?
 - should we review the query model ?
- Add implementations (manifestation of interest from last interim meeting)

Thanks for the attention!
