# Status & TODOs

**Goal - publish -02 by next mtg**

Bug fixes

- BBR-SSRB typo
- Off-by-one bug in the examples section

Clarifications

- Boundary condition on  $\text{pipe} > \text{ssthresh}$
- ACK / DeliveredData accounting when SACK is not supported
- Add explicit cwnd computation in the pseudo code  
 $\text{cwnd} = \text{sndcnt} + \text{pipe}$
- Delete text about the deprecated Rate-Halving
- PRR was published before RACK. Add a section on RACK and PRR interactions
