Note Well

This is a reminder of IETF policies in effect on various topics such as patents or code of conduct. It is only meant to point you in the right direction. Exceptions may apply. The IETF's patent policy and the definition of an IETF "contribution" and "participation" are set forth in BCP 79; please read it carefully.

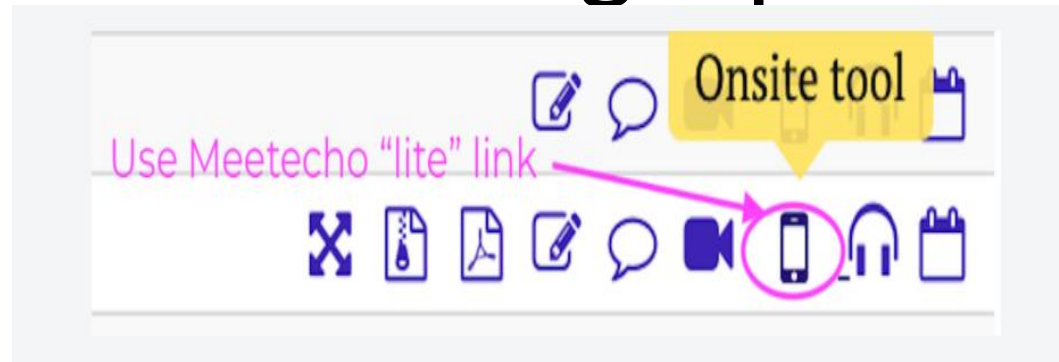

As a reminder:

- By participating in the IETF, you agree to follow IETF processes and policies.
- If you are aware that any IETF contribution is covered by patents or patent applications that are owned or controlled by you or your sponsor, you must disclose that fact, or not participate in the discussion.
- As a participant in or attendee to any IETF activity you acknowledge that written, audio, video, and photographic records of meetings may be made public.
- Personal information that you provide to IETF will be handled in accordance with the IETF Privacy Statement.
- As a participant or attendee, you agree to work respectfully with other participants; please contact the ombudsteam (<https://www.ietf.org/contact/ombudsteam/>) if you have questions or concerns about this.

Definitive information is in the documents listed below and other IETF BCPs. For advice, please talk to WG chairs or ADs:

- [BCP 9](#) (Internet Standards Process)
- [BCP 25](#) (Working Group processes)
- [BCP 25](#) (Anti-Harassment Procedures)
- [BCP 54](#) (Code of Conduct)
- [BCP 78](#) (Copyright)

IETF 113: In-person meeting Tips

- Onsite participants

- Make sure to sign into the session using the Meetecho from the Datatracker agenda

- (<https://datatracker.ietf.org/meeting/agenda/>)

- Use Meetecho to join the mic queue

- To participate in polls initiated by session chairs

- To share and control any slides presented

- Please keep audio and video off if not using the onsite version

IETF 113: Onsite client (cont...d)

The icon of a camera is the link for the remote "full" client, and the icon of a mobile phone is the link for the onsite "lite" client.

Features of the onsite "lite" client

The client provides two basic features:

-  Join/leave the queue. NOTE, the queue is shown on the main screen in the session, not in the client
-  Request to share preloaded slides. Once accepted you will then have buttons to control the slides.

IETF 113: Remote Participants

- To join the session, you will need to use your IETF Datatracker login (<https://datatracker.ietf.org/>)
- Meetecho provides a consolidated view of all the tools and information
 - Audio and video
 - session participant list
 - meeting materials
 - A shared session notepad
- Bluesheets tracking meeting participation: are automatically generated based on your datatracker information
