Laurent Toutain (IMT-Atlantique)

# Shepherd review & comments

- Indicate that this document updates RFC 8724 in the RFC tag
  - *Done*
- Clarify that the document only applies to ack-on-error in abstract/intro
  - *Text added*
- Clarify text about the placement of window number 00
  - *New paragraph added to clarify message format when window zero is included*

# Shepherd review & comments (cont.)

- New text: copy that sentence in full?
  - *Copy-paste error: text now corrected*
- Flag new behaviour for All-0 usage
  - *Added clarification about behaviour of Receiver for All-0, for which the response could be omitted based on other parameters, such as network conditions*

# Next steps

- All comments from Shepherd's review addressed
