

# Update to the IANA SSH Protocol Parameters Registry Requirements

draft-yee-ssh-iana-requirements-00

Peter Yee, AKAYLA

# What it does

- Updates the IANA Secure Shell (SSH) Protocol Parameters registry so that:
  - Those parameters that currently require IETF Review change to Expert Review
  - Establishes an expert reviewers mailing list
  - Those parameters that currently require Standards Action are unchanged

# Where it should go

- Requesting Security AD sponsorship

# Background

- Discussed on the CURDLE mailing list more than a year ago:
