Next Steps

- Based on adoption poll results (WG Chairs feedback), authors to issue a new revision -09:
 - Address raised comments that are of immediate concern:
 - Remove references to individual solution drafts that are still work-in-progress
 - Add a new section to track all open issues that need to be addressed before WG Last Call
 - Change the status of the document to Informational
- Notify the WG of the new document revision
- If no concerns, the guidance from WG Chair is to republish the document as a -00 WG document
