Media over QUIC BoF

IETF 114

Chairs: Alan Frindell and Ted Hardie

After a review of the Note Well, the group reviewed the proposed charter and proposed several changes, which were accepted by those in the room and formed the basis for the BoF questions. Given below are the outcomes of those questions.

152 total participants

1. Does the community think that the problem statement is clear, well-scoped, solvable, and useful to solve?

Yes: 80
No: 10
All: 90

2. Can I see a show of hands of folk willing to review documents (or comment on the mailing list) if a working group is formed?

Yes: 62
No: 9
All: 71

3. Does the community think that given any charter revisions discussed during the BOF (subject to review and finalization on the mailing list), a WG should be formed?

Yes: 90
No: 4
All: 94

4. For anyone who does not think a WG should not be formed, do you wish to address the BoF explaining your concerns?

No one joins the queue.

5. Does the AD have any questions or concerns

No

A list of the changes to the charter adopted during the BoF can be found [here](#) (see commits on 27 July). An additional question was posed to the group during the course of discussion:

Should the charter should specify a mandatory to implement media format, either on a use case specific basis or generally?
Yes 20
No 63
All 83

The chairs did not see consensus but the sense of the room was trending toward No.
