# `draft-irtf-cfrg-cpace`

We have collected feedback regarding target audience and writeup for the draft version 05.

As a result of the collected feedback on and off the list (github issues) and after consulting the CFRG chairs, we concluded that we should focus the writeup for the following personas

- Application architecture designer ("Archibald")

- Implementer ("Cody")

- Tester ("Veronica")

We restructured the write-up with this target reader community in mind.

# draft-irtf-cfrg-cpace

New draft version 06 will be uploaded, once servers are open again.

Next steps:

- Review by the crypto review panel.
