IETF 114 HotRFC

Brought to you by
Aaron Falk who did all the work before this weekend, and
Spencer Dawkins who is in Philadelphia

The Ground Rules

- **HotRFC is a Request For Conversation**
  - It's a good way to find people to talk to, for various reasons

- Each person gets four minutes from "Go" to "Please Applaud"
  - At four minutes, we start applauding (see next slide)
  - When you hear applause, please hand the microphone over 😇

- We don't do questions here - each person provides follow-up info

- To follow along, we're using the HotRFC datatracker agenda for all slides
  - Let the conversations begin!

Please Applaud!!! (and the crowd goes wild)

HotRFC Chair Slides

Thank you to the presenters!

And please, Do the Right Thing!!
