

RIFT Key/Value Structure and Registry

draft-ietf-rift-kv-registry-01

IETF114

Jordan Head
Tony Przygienda

A quick, but important update.

- Nothing too exciting, but it's worthy of an update.
- Previous version needed clarity in terms of IANA Considerations:
 - Request requirements.
 - Expert Review criteria.
- Shepherd write-up is in progress.

A Note on IANA Considerations

- IANA did an early review of this draft and indicated that we didn't yet have a top-level category in their database yet.
- The current top-level category request is in draft-ietf-rift-rift.
- draft-ietf-rift-kv-registry-**02** will need to clearly define this.

Thanks
