# Note Well

This is a reminder of IETF policies in effect on various topics such as patents or code of conduct. It is only meant to point you in the right direction. Exceptions may apply. The IETF's patent policy and the definition of an IETF "contribution" and "participation" are set forth in BCP 79; please read it carefully.

As a reminder:

- By participating in the IETF, you agree to follow IETF processes and policies.
- If you are aware that any IETF contribution is covered by patents or patent applications that are owned or controlled by you or your sponsor, you must disclose that fact, or not participate in the discussion.
- As a participant in or attendee to any IETF activity you acknowledge that written, audio, video, and photographic records of meetings may be made public.
- Personal information that you provide to IETF will be handled in accordance with the IETF Privacy Statement.
- As a participant or attendee, you agree to work respectfully with other participants; please contact the ombudsteam (<https://www.ietf.org/contact/ombudsteam/>) if you have questions or concerns about this.

Definitive information is in the documents listed below and other IETF BCPs. For advice, please talk to WG chairs or ADs:

- [BCP 9](#) (Internet Standards Process)
- [BCP 25](#) (Working Group processes)
- [BCP 25](#) (Anti-Harassment Procedures)
- [BCP 54](#) (Code of Conduct)
- [BCP 78](#) (Copyright)
- [BCP 79](#) (Patents, Participation)
- <https://www.ietf.org/privacy-policy/>(Privacy Policy)

1. Treat colleagues with respect
2. Speak slowly and limit the use of slang
3. Dispute ideas by using reasoned argument
4. Use best engineering judgment
5. Find the best solution for the whole Internet
6. Contribute to the ongoing work of the group and the IETF

Please keep these in mind both at the mic and on IM.

# IETF 114 Meeting Tips

## In-person participants

- Make sure to sign into the session using the Meetecho (usually the “onsite tool” client) from the Datatracker agenda
- Use Meetecho to join the mic queue
- *Keep audio and video off if not using the onsite version*

## Remote participants

- Make sure your audio and video are off unless you are chairing or presenting during a session
- Use of a headset is strongly recommended

# Feedback to ADs

- How are we doing?
- How can we do things better?
- What's broken with the area?
- What's working with the area?

# Document Review Request

Document quality relies on reviews, please review documents in your working group and at least one other document from another working group.

If you'd like documents you care about reviewed, put the effort in to review other documents.

Please!

# Agenda

- o Administrivia
  - ADs 15 minutes
  - Note Well
  - Agenda Bashing
  - RTG Area Update
  - rtg-dir Report
- o Re-chartering of the routing-discussion list. 15 minutes
- o Computing-Aware Networking Update 10 minutes
  - Peng Lui
- o Open Discussion / Any other business 20 minutes

# Area Status

- WG Status Changes
  - Closed: 0
  - Re-chartered: 0
  - New: 1 (savnet)
  
  - BOFs: 1 (msr6)
  
- New Chairs
  - Aijun Wang (savnet)

# WG Distribution

# RTG-DIR REPORT

routing-discussion list

# routing-discussion list

- Routing Area general discussion list.  
<https://www.ietf.org/mailman/listinfo/routing-discussion>
1. Refreshing the description to include pointers to the Note Well (and related documents), scoping (appropriate and inappropriate postings), and description of the Moderator role.
  2. Extend the Moderators' responsibilities to shepherd the discussion of specific topics, periodically summarize, and coordinate with the ADs if meeting time is needed.

# routing-discussion scope

Appropriate postings to the Routing Area discussion list include:

- Initial discussion of open-ended technical issues that may be candidates for IETF work in the Routing Area, but when an appropriate mailing list has not yet been identified.
- Announcements of conferences, events, or activities related to routing technologies.
- Discussions of Routing Area-specific direction and policy.

Discussions of documents going through the standards process and discussions of IETF direction, policy, and the standards process in general are out of scope [[RFC9245](#)].

Inappropriate postings include:

- Advertising and other unsolicited bulk e-mail
- Discussion of subjects unrelated to the Routing Area
- Uncivil commentary, regardless of the general subject, per the IETF Note Well [[NOTE-WELL](#)]
- Announcements of conferences, events, or activities unrelated to routing technologies.

# routing-discussion topic moderation

When directed by the Routing ADs, the Moderators are also responsible for shepherding the discussion of specific topics. In this case, the Moderators will periodically summarize the debate and coordinate with the Routing ADs if meeting time is needed for face-to-face (including virtually) discussion of any aspect.
