

Status of draft-ietf-dprive- unilateral-probing

Paul Hoffman and Joey Salazar
IETF 115, London
November 2022

What has happened recently

- Puneet Sood restarted the discussion of the draft
- Authors responded, issued a new draft
- Authors asked for more input on the list
- Crickets...

Intended next steps

- Within a month, the authors will deal with open issues at <https://gitlab.com/dkg/dprive-unilateral-probing>
- During this time, we would love to see more discussion of the draft on the mailing list
- We will turn in a new draft mid-December, and again hope for discussion on the mailing list
- We'll ask for WG Last Call in early January
