JWS Voucher and options

- RFC 8366 specifies CMS-signed JSON for Voucher artifacts → Draft: JWS signed JSON
- Makes no YANG changes to RFC 8366
- Changes of draft-ietf-anima-jws-voucher-04 --> 05
 - Update of included examples in Annex A
 - Restructuring of section 3
 - Updates of figures and prototype objects (JSON syntax)
 - Editorial improvements

JWS Voucher - Next Steps

- Interop testing with others welcome 😊
 - Could happen in combination with BRSKI-PRM interop
- Document shepherd (still) needed
- Authors agree the document is ready for WGLC

BRSKI-PRM: BRSKI with Pledge in Responder Mode (draft-ietf-anima-brski-prm)
