

JMAP Quotas

Draft-ietf-jmap-quotas-06

Rene Cordier <rcordier@linagora.com>
JMAP IETF-115 meeting November 2022

Last changes

- Just few minor typos
- First partial implementation of JMAP Quota draft in James
 - → quotas/get method
 - → short demo

JMAP identities

- .No property for default identity defined by JMAP mail specification
- .Proposition of an errata adding sortOrder field for Identity object

sortOrder: *UnsignedInt (default: 0) Defines the sort order of Identities when presented in the client's UI, so it is consistent*

An Identity with a lower order should be displayed before an Identity with a higher order (that has the same parent) in a
