

# NETCONF over TLS 1.3

[draft-ietf-netconf-over-tls13](#)

Sean Turner, Russ Housley

NETCONF@IETF115 - 20221107

## Changes from -00 to -01:(addressing WG adoption call comments)

- Editorial: [PR #01](#)
- Remove RFC 5539 reference: [PR #03](#)
- Align text with draft-dhody-pce-pceps-tls13: [PR #05](#)
  - Clarify that TLS 1.3 can be implemented without 0-RTT
  - Clarify that requirements apply to implementations that support TLS 1.3 not that implementations MUST support TLS 1.3

**Status:** No known outstanding issues.

**Request:** WGLC
