

Draft-ietf-suit-manifest-20

ietf 115 London

Editorial & Technical Changes

- Editorial changes
 - Rename "run" to "invoke"
 - Rename "common sequence" to "shared sequence"
 - Add clarifying text about Run Sequence when Strict Order = False
 - Clarify that "suit-invoke" sequence may also contain image checks if necessary
 - Add clarifying text explaining stop conditions for try-each
- Technical changes
 - Add direct-write command and parameter, and content check condition

IANA Early Review

- Assignments for standards track ranges are not reviewed by IESG-designated experts
- Should we adopt a COSE-style hybrid standards + expert review model?
