ACME Renewal Information

draft-ietf-acme-ari-01

Aaron Gable, Let's Encrypt
IETF 116, 2023-03-30

Since IETF 114

- Adopted!
- Updated with minor changes

- [Fully implemented](#) by Let's Encrypt
- Fully implemented by Google Trust Services

Current Work

- Client adoption
  - CertMagic, Caddy (Go)
  - Certify The Web, win-acme (C#)
  - Let's Encrypt is contributing to multiple clients

- Should the response indicate pending revocation?
  - Discussion raised by Andrew Ayer on acme@
  - Perhaps a whole metadata block with reason-specific fields?
