

# draft-ietf-cdni-delegation- acme

IETF 116 - CDNI WG

Frederic Fieau, Emile Stephan – March 27<sup>th</sup>, 2023

# Changes in -02 (from -00)

- **Changed:**

- in section 3: "a dCDN the delivery of HTTPS traffic" -> "the delivery of HTTPS traffic to a dCDN"
- use the Link object instead of a Source object.
- Changed "TimeWindow" is an object that has two properties: "start" and "end" (not "Start" and "End"), where both properties are of object type "Time".

# Changes in -02 (from -00) cont'd

- **Changed:**

- in the time-window description use s/must/MUST/
- In section 4.1: reference section 3.1 instead of 3
- reword the ACME-related security considerations
- "The last suggestion I have is to change the "lifetime" and "lifetime-adjust" attributes to "star-lifetime" and "star-lifetime-adjust".
- the RFC2119 boilerplate is missing
- Draft name. Old: ietf-cdni-https-delegation; New: ietf-cdni-delegation-acme

\* Now in WGLC

Thank you
