IETF 116 Hackathon
25-26 March 2023

This session is being recorded
Image credit: National Library of Medicine
Welcome!

- First IETF Hackathon?
Welcome!

• First IETF Hackathon?
• First IETF event?
Welcome!

• First IETF Hackathon?
• First IETF event?
• First in-person event since COVID-19?
Why Are We Here

• Advance pace and relevance of IETF standards
  – Bring speed and collaborative spirit of open source community into IETF
  – Flush out ideas, feed into working group sessions
  – Produce sample code, reference implementations, utilities

• Attract developers, new people to IETF
  – Match new, skillful developers with IETF veterans
  – University engagement
Note Well

This is a reminder of IETF policies in effect on various topics such as patents or code of conduct. It is only meant to point you in the right direction. Exceptions may apply. The IETF's patent policy and the definition of an IETF "contribution" and "participation" are set forth in BCP 79; please read it carefully.

As a reminder:

- By participating in the IETF, you agree to follow IETF processes and policies.
- If you are aware that any IETF contribution is covered by patents or patent applications that are owned or controlled by you or your sponsor, you must disclose that fact, or not participate in the discussion.
- As a participant in or attendee to any IETF activity you acknowledge that written, audio, video, and photographic records of meetings may be made public.
- Personal information that you provide to IETF will be handled in accordance with the IETF Privacy Statement.
- As a participant or attendee, you agree to work respectfully with other participants; please contact the ombudsteam ([https://www.ietf.org/contact/ombudsteam/](https://www.ietf.org/contact/ombudsteam/)) if you have questions or concerns about this.

Definitive information is in the documents listed below and other IETF BCPs. For advice, please talk to WG chairs or ADs:

- BCP 9 (Internet Standards Process)
- BCP 25 (Working Group processes)
- BCP 25 (Anti-Harassment Procedures)
- BCP 54 (Code of Conduct)
- BCP 78 (Copyright)
- BCP 79 (Patents, Participation)
- [https://www.ietf.org/privacy-policy/](https://www.ietf.org/privacy-policy/) (Privacy Policy)
Code Contribution Guidelines

• Participants can work on any code
• Rules regarding code are per participant's organization and the code’s license
• The code itself is NOT an IETF contribution
• Discussions, presentations, and demos in Hackathon are IETF contributions. In this context, Hackathon is like a working group, and the usual IETF copyright and IPR disclosure rules apply
Projects

• On the Hackathon wiki

Projects Included in Hackathon

Note, all projects are open to everyone. However, some champions have identified their projects as being particularly good for those who are new to the IETF or new to the Hackathon. These projects are marked with a star, i.e. *. If you are championing a project that is great for newcomers, please add a * at the end of your project name.

PQ Use in the real world: X.509 keys, signatures, certificates and protocols

Champion(s)
- John Gray (john.gray at entrust.com)
- Mike Ounsworth (mike.ounsworth at entrust.com)
- Tomofumi Okubo (tomofumi.okubo@digiCert.com)
- Goutam Tamvada (goutam.tamvada at uwaterloo.ca)

Drafts(s)

Project info
- Purpose is to make use of PQ in real world X.509 structures like keys, signatures, certificates and protocols. This will allow us to test interoperability between different algorithm implementations, gain experience using these new algorithms, and provide feedback to the standards groups about practical usage in the real world.

A good starting place is our Github repository: https://github.com/IETF-Hackathon/pqc-certificates

Information on OIDs used to create interoperable structures, consult: https://github.com/IETF-Hackathon/pqc-certificates/blob/master/docs/oid_mapping.md
Projects

• On the Hackathon wiki
• Not sure which project to join?
• Check the Lost & Found
Agenda - Saturday

• 09:30 : Room open for setup by project champions
• 10:00 : Room open for all - pastries and coffee provided
• 10:30 : Hackathon kickoff, Meetecho
• 10:45 : Form Teams, see Team Schedule
• 12:30 : Lunch provided
• 15:30 : Afternoon break - snacks provided
• 18:30 : Dinner provided
• 20:30 : Room closes

(conference center closed completely at 21:00)
Agenda - Sunday

• **09:30** : Room opens - pastries and coffee provided
• **12:30** : Lunch provided
• **13:30** : Hacking stops, prepare brief presentation of project
• **14:00** : Project results presentations, [Meetecho](#)
• **16:00** : Hackathon ends
Gather https://app.gather.town/app/L4fNNdm1NJa1sE2v/ietf
Gather [https://app.gather.town/app/L4fNNdm1NJJa1sE2v/ietf](https://app.gather.town/app/L4fNNdm1NJJa1sE2v/ietf)
Hackathon Space
HackNet (https://hacknet.meeting.ietf.org)

• Special network designed for supporting IETF protocol development across teams within the IETF Hackathon
• Join the IETF network while attending remotely
• Instructions (https://wiki.ietf.org/meeting/116/hackathon/hacknet_instructions)
• Anyone with their own AP?
  – 5 GHz: Channel 36 only, 20 MHz channels
  – 2.4 GHz
Results Presentations

1. What problem you tried to solve?
2. What you achieved?
3. Highlights
   • Lessons learned
   • Feedback to working group
   • Open source, other SDOs

IETF 116 project presentations

This repo is for IETF Hackathon participants to upload project presentations. For convenience, presentation templates are provided in PPTX and HTML formats, the latter of which can be viewed online if it is put in the main branch. For the HTML format, a corresponding pdf is automatically generated from the HTML file by a GitHub action and put in the pdfs-from-html branch.

The use of these templates is optional. If you do use one of these templates, please rename the file such that it clearly identifies your project, e.g., includes the name or acronym of your project. The contents of this repo will be used as the source for all project presentations at the end of the Hackathon and remain as a reference after the Hackathon. Presenters are encouraged to run their own presentations using the screen sharing functionality in Meetecho. Alternatively, the Hackathon Chairs can share your presentation and advance slides for you. For portability, please upload your presentation in PDF or HTML format.

You MUST be a member of the IETF-Hackathon GitHub org to add or update a presentation.

To be added as a member, please be sure to:

- include the name by which you are known as part of your in your GitHub profile
- enable two-factor authentication (2FA)
- send your GitHub username to hackathon-chairs@ietf.org

DO NOT WAIT until just before project presentations start or your request may be lost in the chaos.

For more info on the Hackathon, including the complete and most up to date agenda, please see the Hackathon Wiki.
## IETF 116 project presentations

This repo is for IETF Hackathon participants to upload project presentations. For convenience, presentation templates are provided in PPTX and HTML formats, the latter of which can be viewed online if it is put in the main branch. For the HTML format, a corresponding pdf is automatically generated from the HTML file by a GitHub action and put in the pdfs-from-html branch.

The use of these templates is optional. If you do use one of these templates, please rename the file such that it clearly identifies your project, e.g., includes the name or acronym of your project. The contents of this repo will be used as the source for all project presentations at the end of the Hackathon and remain as a reference after the Hackathon. Presenters are encouraged to run their own presentations using the screen sharing functionality in Meetecho. Alternatively, the Hackathon Chairs can share your presentation and advance slides for you. For portability, please upload your presentation in PDF or HTML format.

**You MUST be a member of the IETF-Hackathon GitHub org to add or update a presentation.**

To be added as a member, please be sure to:

- include the name by which you are known as part of your in your GitHub profile
- enable two-factor authentication (2FA)
- send your GitHub username to hackathon-chairs@ietf.org

**DO NOT WAIT** until just before project presentations start or your request may be lost in the chaos.

For more info on the Hackathon, including the complete and most up to date agenda, please see the Hackathon Wiki.
related-implementations

• For individual drafts, authors can edit “Additional resources”
• For working group drafts and RFCs, working group chairs can edit
related-implementations

Find Code Related to an Internet-Draft or RFC

Abstract

Code related to existing IETF standards and ongoing standardization efforts may exist and be publicly accessible in many places. This document provides a set of practices to make it easier to identify and find such code.

Discussion Venues

This note is to be removed before publishing as an RFC.

Discussion of this document takes place on the Evolvability, Deployability, & Maintainability mailing list (edm@iab.org), which is archived at https://mailarchive.ietf.org/arch/browse/edm/.

Source for this draft and an issue tracker can be found at https://github.com/eckelcu/draft-eckel-edm-find-code.
Hackdemo Happy Hour

• Share hackathon projects with IETF Community
• Room: G304 (3rd floor)
• Monday 18:30 - 19:30
• Register your team
  – MUST REGISTER BY 13:00 MONDAY, 27 MARCH
Code Lounge

• Room: G304 (3rd floor)
• Space reserved in IETF lounge all week
• Collaborate on running code
• **Schedule** time for your team
Running Code Sponsors - THANK YOU!
