JMAP for Calendars

https://datatracker.ietf.org/doc/html/
draft-ietf-jmap-calendars-11

Summary of v10/11 changes

- Replaced **CalendarPreferences** data type with *isDefault* properties on **Calendar** and **ParticipantIdentity**, as per our discussion last time.

- Added *scheduleId* property to change notification for events updated via iTIP.

Next steps

- Ensure JSCalendar work is finished.

- Fix section references and any other editorial nits

- Publish! (Same time as JSCalendar bis)

JMAP Sharing

- Fix section references and any other editorial nits

- Publish! (Meant to have done this by now, didn't get to it. Sorry!)
