# Note Well

This is a reminder of IETF policies in effect on various topics such as patents or code of conduct. It is only meant to point you in the right direction. Exceptions may apply. The IETF's patent policy and the definition of an IETF "contribution" and "participation" are set forth in BCP 79; please read it carefully.

As a reminder:

- By participating in the IETF, you agree to follow IETF processes and policies.
- If you are aware that any IETF contribution is covered by patents or patent applications that are owned or controlled by you or your sponsor, you must disclose that fact, or not participate in the discussion.
- As a participant in or attendee to any IETF activity you acknowledge that written, audio, video, and photographic records of meetings may be made public.
- Personal information that you provide to IETF will be handled in accordance with the IETF Privacy Statement.
- As a participant or attendee, you agree to work respectfully with other participants; please contact the ombudsteam (<https://www.ietf.org/contact/ombudsteam/>) if you have questions or concerns about this.

# Meeting Tips

(They tell me to put this in here)

## In-person participants

- Make sure to sign into the session using the Meetecho (usually the “Meetecho lite” client) from the Datatracker agenda
- Use Meetecho to join the mic queue
- *Keep audio and video off if not using the onsite version*
- **Wear masks unless actively speaking at the microphone.**

## Remote participants

- Make sure your audio and video are off unless you are chairing or presenting during a session

**This session is being recorded**

# Dud-Poll Times

We would like to start weekly 1-hour working meetings.

Results from the poll to the right. (All the times with 5 people, nothing else included.)  
All times are in US Eastern time zone

Not the best turn out on the poll.

Should we use these poll results and schedule weekly meeting? Do you want to add yourself to the poll?

That's it folks - 116 is a wrap.  
Safe travels home for those who traveled.

I have no idea - the image was just in Keynote.
