

# Delegation of stateids

**IETF 116, NFSv4 WG**

**Tom Haynes March 31th, 2023**

# History

- First published as an individual draft in Apr 2018
- Private server implementation since 2018
- Open source client implementation since 2018
  - Linux NFS client maintainer wants new protocol changes to be IETF standard track documents
    - Clears up IPR concerns
    - Open Standards equates to open source code
- *Accepted for WGLC in IETF 114*

# Since IETF 114

- Informed not ready for WGLC
- Addressed major issues from Dave Noveck
- Split out LAYOUT\_WCC into draft-haynes-nfsv4-layoutwcc
- Want a solid plan to enter WGLC
  - Either it is ready
  - Or we can identify why not.
