Open Issues

- “Use cases and rationale” (Issue#10)
 - At adoption Nancy asked to extend use cases and rationale and to address Anders’ comments
 - We think Section I does the job; can someone have a look?
- “Early allocation” (Issue#14)
 - Action pending on RATS Chairs and Roman – *depends on how quick EAT and this document will progress through the publication process*
 - (Note that +cwt adds to the list of early registrations)
