

draft-rswg-xml2rfcv3- implemented

John Levine and Paul Hoffman
IETF 116, Yokohama
March 2023

Status

- [draft-rswg-xml2rfcv3-implemented](#) is at -01
- Only few changes from -00 (next slide)
- Very close to what the current `xml2rfc` code does
- Ready for the WG to decide what to do with this document

Changes from -00 to -01

- Got rid of <cref> tags on a few paragraphs that were inserted by the tooling
- Added the XML template for <stream>
- Removed the long and not-always correct change log

Current proposed changes

- <postal>
 - Needs a library that is no longer supported
- <u>
 - Was added after 7990 was adopted
 - Not used in published RFCs
- <seriesInfo>
 - This was always a mess
