

BESS Working group

WG drafts statistics

Hot Areas

- EVPN is still the major topic of drafts:
 - New Service interface flavors
 - Optimization of BUM traffic
 - Load-balancing/Multihoming
 - DF election
- EVPN enhancement for DC are also one of the area of interest from working group

Intersection with other WGs

- Mostly IDR:
 - For draft cross-reviews
 - For BGP mcast related drafts
- Few other interactions on a per draft basis with other WGs: BFD, PIM, MPLS...
