

DTLS1.3 PLAINTEXT PACKET NUMBERS

[draft-pismenny-tls-dtls-plaintext-sequence-number-00](#)

Boris Pismenny

WHAT?

- Remove packet number encryption in datagram layer security 1.3

WHY?

- Header encryption is costly in closed networks
- Wire format ossification is less concerning in closed networks

HOW?

- Negotiation during Client/Server Hello

or

- New port for plaintext packet number DTLS (proposed by Lanlan Pan)

THANK YOU
