

IETF 116 - TLS

RFC8447bis

—

draft-ietf-tls-rfc8447bis-03

Joe Salowey, Sean Turner

Recent Updates

- Draft is now an Update to RFC 8447
- Incorporates working group suggestions for text for the Y, N and D states
- Populated D entry for some registries
- Changed the exporter registry from specification required to expert review

Open Issues

No Major Open Issues

Needs Review

- Wording of recommended text?
- Any missing ‘D’ values or registries?

Next Steps

- WGLC
