IETF Note Well

This is a reminder of IETF policies in effect on various topics such as patents or code of conduct. It is only meant to point you in the right direction. Exceptions may apply. The IETF’s patent policy and the definition of an IETF "contribution" and "participation" are set forth in BCP 79; please read it carefully.

As a reminder:

• By participating in the IETF, you agree to follow IETF processes and policies.
• If you are aware that any IETF contribution is covered by patents or patent applications that are owned or controlled by you or your sponsor, you must disclose that fact, or not participate in the discussion.
• As a participant in or attendee to any IETF activity you acknowledge that written, audio, video, and photographic records of meetings may be made public.
• Personal information that you provide to IETF will be handled in accordance with the IETF Privacy Statement.
• As a participant or attendee, you agree to work respectfully with other participants; please contact the ombudsteam (https://www.ietf.org/contact/ombudsteam) if you have questions or concerns about this.

Definitive information is in the documents listed below and other IETF BCPs. For advice, please talk to WG chairs or ADs:

IETF Conduct Guidelines

1. IETF participants extend respect and courtesy to their colleagues at all times.

2. IETF participants have impersonal discussions.

3. IETF participants devise solutions for the global Internet that meet the needs of diverse technical and operational environments.

4. Individuals are prepared to contribute to the ongoing work of the group.

Liaisons and Communications

• Received:
  0 From: ITU-T-SG-13
  0 Date: 2023-05-08
  0 Title: LS/r on work items related to deterministic networking and deterministic communication service in ITU-T SG13 (IEEE 802.1-LS71)
    https://datatracker.ietf.org/liaison/1833/
  0 Attachment: sp17-sg13-oLS-00086
    “This liaison statement answers IEEE 802.1-LS71 and LS66. ITU-T Study Group 13 (SG13) would like to thank IEEE 802.1 for sharing information related to collaboration on deterministic communication between IEEE, IETF and 3GPP, as well as specific technical considerations on deterministic networking and deterministic communication service related work items in SG13.”
  0 Response from 802.1:
Reminder: IPR Disclosure Process

• We follow process put in place in other groups as a result of very late IPR disclosures
  ▰ This is not a required IETF process

• Includes
  Polling of draft authors & contributors:
  1. Prior to moving to next step in WG process
     a. Before an individual draft becomes a WG document and
     b. Before a WG document goes to last call
  2. Requires IPR compliance statement from all listed in draft
  3. Request that an IPR statement be sent to the list by any new author or contributor when added to a WG document
