

# Applications over BP

- **Drafts proposed to carry traffic as BPv7 payloads**
  - SMTP, HTTP
    - Provide guidance on how to construct a payload for a BPv7 bundle
    - Working implementations exist
  - Mailing list adoption call
    - Some support for adoption of drafts
    - General support for increased use of BP
    - Some questions on scope and approach
- **Questions for WG:**
  - Is there interest in general document for BPv7 application considerations?
  - Any disagreement to specific document for SMTP BPv7 payloads?
  - Any disagreement to specific document for HTTP BPv7 payloads?
