# Sieve Process Calendar

Changes since IETF 116:

- Changed the name of the action from processimip to processcalendar
- Added a new :nonitip tagged argument
- The action is now independent of iMIP and is calendar data format agnostic

# Sieve Process Calendar

## New Syntax:

```
processcalendar[ :addresses <string-list> ]  
    [ :nonitip ]  
    [ :updatesonly | :calendarid <string> ]  
    [ :deletecanceled ]  
    [ :outcome <variablename: string> ]  
    [ :errstr <variablename: string> ]
```

# Sieve Process Calendar
