

Responsiveness under Working Conditions

draft-ietf-ippm-responsiveness-02

Christoph Paasch, Randall Meyer, Stuart Cheshire, Will Hawkins

Implementation Status

macOS Sonoma networkQuality

Open-source goresponsiveness (<https://github.com/network-quality/goresponsiveness>)

librespeed (<https://github.com/FelixGaudin/speedtest-RPM/>)

RPM-Community

<https://github.com/network-quality/community/wiki>

Scope-of-work

- Design and develop measurement methodologies for the metrics that matter.
- Integrate those methodologies in existing open-source tools.
- Work on improving open-source implementations like webservers, networking stacks,...

RPM-Community

<https://github.com/network-quality/community/wiki>

- ~ 7 months old
- 50+ members on Slack workspace (more than 10 companies/universities)
- Open-source work on goresponsiveness, librespeed, iperf2, go-lang, Apache Traffic Server,... (more to come)
 - More than 10 open-source contributions
- Join our Slack workspace, join our weekly meeting !
