

Operational Security Capabilities for IP Network Infrastructure

a.k.a OpSec

*Chairs: Ron Bonica, Jen Linkova
IETF117 July 27th, 2023.*

Note Well

This is a reminder of IETF policies in effect on various topics such as patents or code of conduct. It is only meant to point you in the right direction. Exceptions may apply. The IETF's patent policy and the definition of an IETF "contribution" and "participation" are set forth in BCP 79; please read it carefully.

As a reminder:

- By participating in the IETF, you agree to follow IETF processes and policies.
- If you are aware that any IETF contribution is covered by patents or patent applications that are owned or controlled by you or your sponsor, you must disclose that fact, or not participate in the discussion.
- As a participant in or attendee to any IETF activity you acknowledge that written, audio, video, and photographic records of meetings may be made public.
- Personal information that you provide to IETF will be handled in accordance with the IETF Privacy Statement.
- As a participant or attendee, you agree to work respectfully with other participants; please contact the ombudsteam (<https://www.ietf.org/contact/ombudsteam/>) if you have questions or concerns about this.

Definitive information is in the documents listed below and other IETF BCPs. For advice, please talk to WG chairs or ADs:

- BCP 9 (Internet Standards Process)
- BCP 25 (Working Group processes)
- BCP 25 (Anti-Harassment Procedures)

Meeting Minutes Taker

Housekeeping

In-person Participants:

- Scan the QR code
- To ask questions: join the Meetecho queue. State your name.
- Silence your phones

Meetecho Participants:

- *Keep your audio and video off unless you are speaking*
- To speak: join the queue, wait for your turn, send audio (video)

Speakers

- Use "Share Preloaded Slides" button and pick your presentation.

Working Group Business: Since IETF116

RFC Ed Queue

- Indicators of Compromise (IoCs) and Their Role in Attack Defence, [draft-ietf-opsec-indicators-of-compromise](#)
- Attribution of Internet Probes, [draft-ietf-opsec-probe-attribution-09](#)

New WG Document

Implications of IPv6 Addressing on Security Operations, [draft-ietf-opsec-ipv6-addressing](#)

Agenda

- **Implications of IPv6 Addressing on Security Operations**
 - draft-ietf-opsec-ipv6-addressing
 - Fernando Gont, 30 min
- **Revisiting BGP Security Best Practices (BCP194 / RFC7454)**
 - Tobias Fiebig, 10 mins
- **On Network Path Validation**
 - draft-liu-on-network-path-validation
 - Chunchi Liu, 15 min
