RADIUS v1.1

MINOR UPDATES

ALAN DEKOK IETF 17
MINIMAL CHANGES FROM IETF 116

- Some clarifications based on WG feedback
- Removal of “flags” field
- Discussions of Error-Cause in Section 6.4
- Signalling in error case
  - do we want to use Protocol-Error?
STATUS

• It seems pretty much done, TBH
• One implementation
• TLS issues largely resolved
• The most difficult portion was working around TLS / OpenSSL issues
