

Supply Chain Integrity Transparency and Trust

Welcome to SCITT at IETF 117

This session is being recorded

Note Well

This is a reminder of IETF policies in effect on various topics such as patents or code of conduct. It is only meant to point you in the right direction. Exceptions may apply. The IETF's patent policy and the definition of an IETF "contribution" and "participation" are set forth in BCP 79; please read it carefully.

As a reminder:

- By participating in the IETF, you agree to follow IETF processes and policies.
- If you are aware that any IETF contribution is covered by patents or patent applications that are owned or controlled by you or your sponsor, you must disclose that fact, or not participate in the discussion.
- As a participant in or attendee to any IETF activity you acknowledge that written, audio, video, and photographic records of meetings may be made public.
- Personal information that you provide to IETF will be handled in accordance with the IETF Privacy Statement.
- As a participant or attendee, you agree to work respectfully with other participants; please contact the ombudsteam (<https://www.ietf.org/contact/ombudsteam/>) if you have questions or concerns about this.

Definitive information is in the documents listed below and other IETF BCPs. For advice, please talk to WG chairs or ADs:

- [BCP 9](#) (Internet Standards Process)
- [BCP 25](#) (Working Group processes)
- [BCP 25](#) (Anti-Harassment Procedures)
- [BCP 54](#) (Code of Conduct)
- [BCP 78](#) (Copyright)
- [BCP 79](#) (Patents, Participation)
- <https://www.ietf.org/privacy-policy/>(Privacy Policy)

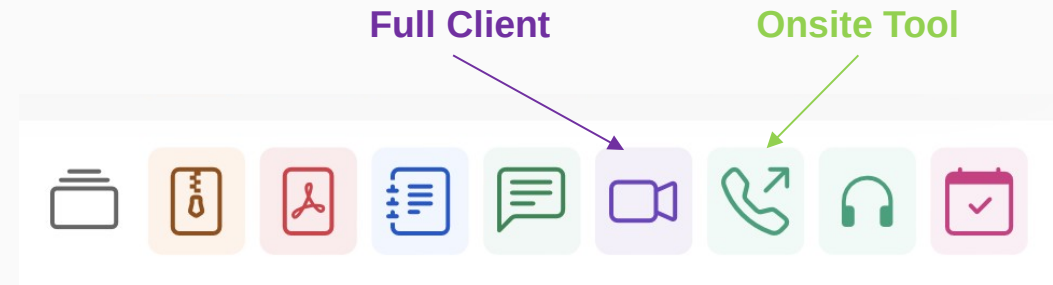

Reminder of the key points of the Code of Conduct [RFC7154]:

1. IETF participants extend respect and courtesy to their colleagues at all times
2. IETF participants have impersonal discussion
3. IETF participants devise solutions for the global Internet that meet the needs of diverse technical and operational environments

Meeting Tips

In-person participants

- Make sure to sign into the session using the Meetecho Onsite tool (formerly “lite client”) from the Datatracker agenda
- Use Meetecho to join the mic queue
- *Keep audio and video **off***

Remote participants

- Make sure your audio and video are off unless you are chairing or presenting during a session
- Use Meetecho to join the mic queue
- Use of a headset is strongly recommended

SCITT Resources for IETF 116

Chairs

- Jon Geater
- Hannes Tschofenig

Updates since 116

- Regular conference calls and interactions with others working on supply chain security solutions.
- Architecture updated in time for the submission deadline
<https://github.com/ietf-wg-scitt/draft-ietf-scitt-architecture>
- Use cases not updated – is it complete?
<https://github.com/ietf-wg-scitt/draft-ietf-scitt-software-use-cases>
 - Architecture now references the use case document and does not contain any use cases anymore.

ISO TC 292 - Security and Resilience

Scope: Standardization in the field of security to enhance the safety and resilience of society.

Working Group 4 - Authenticity, integrity and trust for products and documents

This Working Group is responsible for drafting standards in the field of fraud countermeasures and controls.

ISO 22373:

- provides **guidelines**
- applicable to **all organizations**, regardless of their type, size, or nature
- **Technology-agnostic** and can leverage existing and upcoming technologies like PKI, W3C verifiable credentials, etc.
- focuses on ensuring **scalability** and **interoperability**

Outreach to ISO – information sharing planned for the next few months.

Plan to continue weekly conference calls
(also over the summer vacation period)

Agenda

Welcome and Status Update (5 min) *Chairs*

Hackathon Report (25 mins) *Jon Geater*

Architecture (60 mins) *Orie Steele, Mike Prorock*

Open Mic (25) *All*

Wrap-up and Conclusion (5 min) *Chairs*
