

# draft-ietf-suit-report-05

ietf117

July 2023

# Summary

- Changed EAT type recommendation from mesres to measurement
- Added notes on transforming a suit report in the verifier
- Expanded IANA Considerations

# Embedding SUI Reports in EAT

- The SUI Report is a form of software measurement
- Now recommending that SUI Report be an EAT measurement.
  - Previous suggestion was to use mesres

# Transforming SUIT Reports in EAT

- SUIT reports are a procedural record
  - Verifier may be able to convert
  - Verifier requires:
    - SUIT Report
    - All referenced manifests
  - Can produce all measurements accepted by the SUIT Processor
  - Can replicate these measurements in an EAT mesres
  
- Added text to this effect in draft
