

Update on JWS signed Vouchers

JWS signed Voucher Artifacts for Bootstrapping Protocols
draft-ietf-anima-jws-voucher-09

Michael Richardson, Thomas Werner

mcr+ietf@sandelman.ca

thomas-werner@siemens.com

Shepherd: Matthias Kovatsch

IETF 118

ANIMA Working Group

JWS Voucher - Recall

- RFC 8366 specifies CMS-signed JSON for Voucher artifacts
→ draft-ietf-anima-jws-voucher specifies JWS signed JSON
- Makes no YANG changes to RFC 8366
- Already used by BRSKI-PRM
→ draft-ietf-anima-brski-prm

BRSKI-PRM: BRSKI with Pledge in Responder Mode (draft-ietf-anima-brski-prm)

JWS Voucher - Status

- WG Last Call (WGLC): DONE, before 116
- Shepherd writeup: DONE, July 2023

- IANA registration for typ value definition
“application/voucher-jws+json”: TODO
- Ready for AD review

- Interop testing with others welcome 😊
 - Could happen in combination with BRSKI-PRM interop
 - PoC implementations of all components available, please get in touch
