

Advancing DHCPv6 to Internet Standard

IETF-118 (Prague), DHC WG
Wednesday November 8, 2023

Last Edit: 2023-11-06 09:00 (TW)

Motivation for Advancing DHCPv6 to Internet Standard

- DHC Charter
 - The third item main objective in the DHC charter states:
Issue an updated version of the DHCPv6 base specification, and after an appropriate interval following publication, advance to Internet Standard.

Standards? Who needs standards?

Pay now or pay later...

Published - 03

- This is a minor revision to RFC8415 to obsolete a few items, address a few minor issues, and add an implementation status report for advancing the DHCPv6 protocol to full Internet Standard.
