What's wrong with RFC 8427

- Representing DNS Messages in JSON
- good job👍
- never adopted by DNSOP (or any WG)
- individual submission, informational
- tiny inaccuracy
- **missing EDNS pseudorecord**
  - also missing in dig

Libor Peltan, CZ.NIC

Defining EDNS text+JSON

- zone file syntax, JSON syntax
- human readable → mnemonics, structure
- similar to existing
- not much own creativity
- DNSOP helpful feedback mostly doc

Libor Peltan, CZ.NIC

What's wrong with draft-peltan-edns-presentation-format-02

- implementations
  - kdig 3.3.2
- interest in DNSOP
- seeks right track through IETF

- QUESTIONS

Libor Peltan, CZ.NIC
