

The Future of the DRIP workgroup

November 7, 2023

Robert Moskowitz

Moving with the industry

Activities outside IETF

- IETF work is getting visibility in UAS space
- How to stay relevant as industry matures

Activities outside IETF

- EU U-Space
 - Network Remote ID
 - Also focus of other CAAs
 - draft-moskowitz-drip-secure-nrid-c2
- ICAO RPAS UTM
 - And others
 - UAS data input from Broadcast RID
 - draft-moskowitz-drip-crowd-sourced-rid

Activities outside IETF

- ASTM
 - WK84631 - Device to Device Certificate-based Communications Security Framework for UAS/UAM
 - draft-moskowitz-drip-a2x-adhoc-session
 - draft-moskowitz-drip-efficient-a2g-comm
- Mitre
 - A2X Stakeholders
 - And other similar industry groupings

Activities inside IETF

- Privacy position
 - draft-moskowitz-drip-operator-privacy
- 6gip
 - draft-moskowitz-drip-efficient-a2g-comm
 - Thursday side meeting

Staying Relevant

- Can new work to stay relevant in UAS/UTM fit in current charter

Or

- Revise charter?
