

**IAB Outreach  
Coordinator and  
Related Activities.**

**Dhruv Dhody**

# IAB Outreach Coordinator

- IAB created a new role - “IAB Outreach Coordinator” as part of our effort to better plan, coordinate, and keep track of the Outreach activities undertaken by the IETF Leadership.
  - The coordinator will cooperate with the IESG and coordinate with the EODIR in tracking outreach activities.
  - More information at
    - <https://www.iab.org/activities/outreach/>
    - [https://www.iab.org/wiki/index.php/IAB\\_Outreach\\_Coordinator](https://www.iab.org/wiki/index.php/IAB_Outreach_Coordinator)

# Recent Outreach Activities

- The IAB hosted a town hall session about the IETF at the Internet Governance Forum (IGF) in Kyoto.
  - Highlighted the importance of common, interoperable, and continually evolving infrastructure standards in maintaining a global and healthy Internet, and avoiding fragmentation.
  - Several members of the IETF leadership participated in the panel discussion and in the broader IGF events, both in person as well as remotely.
  - The Town Hall was attended by 40-50 persons in the meeting room and about 30 people who participated remotely.
