# Subscription to Distributed Notifications

## Status and Next Steps

- **Pending items from IETF 117**
  - Review Observation Domain ID terminology
- **Updates introduced in -08**
  - Change terminology from Review Observation Domain ID to Message Publisher ID to avoid ambiguity with IPFIX. Addressing concerns from Benoit Claise. -> **Requesting feedback and comments**
  - No other open points remaining.  
-> **Requesting working group last call with draft-ietf-netconf-udp-notif together.**
