Overview

Draft updates

Open questions

Draft updates

Clerical

- Spelling corrections

- Phrasing differences

- Naming consistency

Protocol

- Status-Realm Response-Code numbers updated

- Server-Information adds Time-delta

- Status-Realm Responding-Server section

Status-Realm Response-Code

Renumbering

- 257-260 decremented, since 256 was omitted

- 260 no longer has overlapping meanings.

Time-Delta

Server-Information now has an integer named Time-Delta.

Its value is the milliseconds that this server waited to hear back when proxying the request forward.

Responding-Server

Target server details

- Basically a Server-Information block about the target realm server
