SATP Architecture

draft-ietf-satp-architecture-01

IETF118 Prague

Thomas Hardjono, Martin Hargreaves, Ned Smith, V. (Rama) Ramakrishna

Summary

- Draft largely unchanged since draft-00

- Minor changes at IETF117 (July 2023)

  - New paragraph on Compatibility Considerations
  - Some questions in GitHub/Issues

- High-level flows matches SATP-Core

Message Flow Diagram (v19) in Github repo

Next Steps

- Request WG to review again

  - Is the architecture general enough to accommodate various types of networks

  - Any inconsistencies with SATP-Core

- Goal: WG Last Call

Thank You and Q&A
