Operational Guidance on Coexistence with Classic ECN during L4S Deployment

draft-ietf-tsvwg-l4sops-05

https://github.com/tsvwg/ietf-l4sops

Greg White, Editor

TSVWG @ IETF118

Nov 9, 2023

Scope & Status

- Addresses the concerns raised about possible rate-imbalance in shared-queue RFC3168 bottlenecks
  - Guidance for Operators of End-hosts, Operators of Networks, Researchers

- WG agreed to keep it as a living document to capture experiences and knowledge gained during initial L4S deployment experiments
  - WG milestone: Submit as Informational RFC – November 2024

- Newly added to tsvwg GitHub space
- Please send suggestions via mailing list or via GitHub
